Sequiot V. F. W. To Install New Officers Friday

Waukegan Team to Induct New Officers: Dance To Follow

Installation of the new officers of Sequiot Post Veterans of Foreign Wars will take place at a public meeting to be held tomorrow evening at the St. Ignatius' Guild Hall.

A special installation team will be on hand to induct the new officers into office, Len Radschweit, Commander of Matt L. Smith Post, of Waukegan will head the team.

Officers to be installed include Willard Schneider, Commander; Robert Strang, Vice Commander; Herman Meinersmann, Junior Vice-Commander; Jack Sieb, Quartermaster; James Mapleshorpe, Chaplain; Kenneth Blumenschein and George B. Bartlett, Jr., members of the executive board.

Dancing and refreshments will follow the ceremony, according to information furnished by outgoing Commander Dr. John L. Zimmerman, who adds that the public is welcome to attend the affair.

Grass Lake School Bond Issue Passes

171 Voters Cast Ballots At Election Sat., Apr. 20

Grass Lake school district will have a new school building by the fall of 1947, if plans of the school board there mature. First hurdle in the plan was passed last Saturday when 171 voters of the district cast ballots on several propositions relative to the improvement.

In the first of the propositions voters were asked to select a site for the new school. Several sites were put before them with property owned by Mrs. Bessie Trieger getting the nod by polling 51 votes. Thirty-seven ballots were marked in favor of accepting a gift of five acres from John Lucas, and 45 were polled in favor of purchasing the Manz property, adjacent to the school.

Other propositions before the voters included one to authorize the board to purchase the site chosen, and this was carried 121 to 46. The proposition empowering the board to build a new building in which to house the school was also carried by a vote of 130 for and 32 against.

The bond issue proposition, which will furnish the money for all the above, was carried by a smaller margin (122 for and 40 against) indicating that some of the voters of the district wished to have the new site and the new building, but were unwilling to have the bonds issued to supply the necessary funds.

Plans for the new school will be made within the next few months and bids for the construction will be sought. Tentative plans for the building call for the erection of a building to contain three classrooms and an auditorium. It is hoped that the actual construction can be started in the fall of 1947.

Antioch Lions Club Hears Dr. Petter On Co. Tuberculosis

Members of the Antioch Lions Club heard an interesting talk on Tuberculosis control within the county by Dr. Petter, head of the Lake county T. B. Sanatorium, at a meeting held at Pregenzers Monday evening.

Antioch high school students are completely free of Tuberculosis infection, according to findings of the new T. B. control mobile x-ray unit, which tested all positive reactors here last week.

Dr. Petter's talk was very interesting, in that it gave an overall picture of the strides taken to eliminate prevalence of the disease in Lake county. He said that one death every eight minutes is caused by the disease, and commented on the speed with which prevalence of the disease was wiped out in cattle, expressing the hope that the same efficiency could be obtained in combating the disease in humans, once enough interest could be stimulated in it.

Other features of the meeting included a discussion of the Village zoning program and pictures of a program of the Telephone hour. The pictures were presented by E. L. Simpson, local manager for the Illinois Bell Telephone Company.

Protests Greet Moving 100-year-old Building To Village Outskirts

Antioch was buzzing with talk this week concerning the moving of a building more than 100 years old to a site just west of the village limits. The building, which is now the property of Dr. Amos P. Bratrude, who had it moved to its present location, has been likened to store buildings in western "ghost towns" and stores in "slum" quarters in cities.

According to information obtained by the News' correspondent in Wilmet, Wisconsin, from where the building was moved, the building is known to be more than 100 years old, and looks more. The building was originally built in the roadway in the center of Wilmet's business district and earliest history obtainable revealed the place housing a harness shop and shoe repair business operated by one Thiggs.

After the building was found to be situated on road property the owner, Bela Tabor, moved it to a location just north of the present Wilmet postoffice and it served as a business building there until purchased in 1870 by Wm. Bufton, who operated the business there until 1891. He then moved it to other land in the village.

Ernest Peacock purchased the building about 1897 and used it for a few years, after which it was sold to John Nett who owned it for more than twenty years. All during this time the building was vacant. The property was inherited by Ben Nett some years ago and was purchased by Dr. Bratrude from him.

Rumor had it that Nett had said that the building was sold to "get the eyesore out of Wilmet," but when contacted today he declined to admit to the statement, he did, however, say that he thought that the value of his land in Wilmet would be enhanced by its removal and that the same sentiment was held by neighboring landowners.

Interested persons in Antioch who contacted the county zoning board to see if there was any possibility of blocking issuance of a permit, which would allow the building to be placed at the entrance to Antioch and almost in front of St. Peter's Church, found that county zoning laws provide only for zones for types of structures and embrace no building code or restrictions on cost or appearance of them.

Various suggestion have been made as to methods of curbing the growth of the "shantytowns" on the outskirts of the village. Among them is the suggestion that more territory be taken into the corporate limits in order to allow village authorities to control building there. Also work is now being done to try to get legislation passed which will make possible the addition of a building code to the county zoning machinery.

Appeals to B. F. Naber, owner of the land, will be made by several individuals and organizations, in an effort to put a stop to the building up of a "Shackville" at the west village limits of Antioch.

Hans L. Jansen Dies Today of Heart Attack

A man, believed to be Hans L. Jansen was found dying on the roadside of route 173 at 8 a. m. this morning. American Coach Company Driver Russell Lasco is thought to have been the first to see him. Lasco stopped the bus and investigated, and being unable to rouse him, called the rescue squad.

He was dead when the squad arrived, and the body was taken to Strang's Funeral home. Efforts to identify the body were made and letters and other papers found on the body indicate that he had been roving over the northern part of Illinois, as evidences of residence in Elgin, Rockford, Melleny and other towns in the region were found.

Citizenship papers taken out in 1940 indicate that he was 77 years of age. He had inquired of Superintendent of streets, William Thiemann, about places to go fishing in Antioch and had evidently started to walk to the channel at Sequiot creek and 173, when the heart attack responsible for his death occurred.

An inquest will be held tomorrow morning at 10:00 a. m., and it is hoped that relatives will be located in order that they may be present.

Interest High In Antioch Recreation Spring Tournament

More than 120 entries have already been received for Carl Gibson's Spring Tournament, to be rolled off beginning this Saturday and Sunday and continuing through Wednesday and next weekend, at the Antioch Recreation.

If entries continue to come in at the present rate, prize money will be well above the \$1200.00 announced as prize money on a 253 entry basis.

Lou R. VanPatten Resigns as Chief Of Fire Department

Has Served as Member of Local Fire Dept. For 33 Years

Fire Chief L. R. Van Patten announced his intention to resign from the position of Antioch fire chief at a meeting of the fire department held Tuesday evening. Cleto Vos, who has served as assistant chief during the time Van Patten has been chief, was recommended for the appointment to succeed him. Appointment to the office is made each year by the village president at the first meeting of the department each May.

When asked the reason for his decision to quit the post Van Patten cited his long record of service to the department, pointing out that only two charter members of the organization are still on the job, namely George Garland, treasurer, and himself. He also said that he had only agreed to take the chiefship until the war was ended and members who were in service returned.

Van Patten's impressive record of service to the department was begun in Jan. 1915, when he was elected its first president. He was elected treasurer and served from July 1915 until 1917, and was appointed chief of the department in 1941, when Jas. Stearns resigned to accept a Deputy State Fire Marshalship, and has acted as chief since that time.

In line with Van Patten's desire to let some of the "younger blood" take over, was the recommendation of the fire department members that Cleto Vos be appointed to succeed him at the expiration this year, May 1. Since appointments have always been made in accordance with the wishes of the membership, it seems certain that Vos will be appointed to the position.

Legion Softball Team Has First Practice Tuesday

Twenty-two aspirants for positions on Antioch Legion Post's softball teams were on hand for the first practice session last Tuesday evening at the high school diamond. Practice will take place every Tuesday during the season, according to Ed. Frazier, athletic director of the local Legion Post.

A captain, manager and custodian will be elected next Tuesday at the scheduled practice, or in case of inclement weather the election will take place at the Legion home.

All necessary equipment has been purchased by the Legion and plans for outfitting players with suits have been made.

No games have been scheduled as yet, but it is believed that one of the two teams to be organized will play in the soon to be formed Legion league. Work in organizing the new league is now being completed by the 10th District officers of the Legion, headed by Joe Nemanich, 10th District commander. The other team will play games with teams from nearby towns.

A cordial invitation is extended to all men of the community to participate in the program, whether or not they are Legion members.

Poppy Poster Winners Are Announced Today

Mrs. L. J. Zimmerman, Legion Auxiliary chairman for Poppy Day, today announced the winners in the annual Poppy Poster contest. More than 125 posters were entered in the contest by pupils of Antioch Grade school, Emmons school and Grass Lake school.

Mrs. C. E. Gaffey, Mrs. E. J. Hays and Clarence Shultis acted as judges for the contest and selected the winners.

First place in the 1st class contest, which includes entries submitted by pupils of the 5th and 6th grades, was taken by a poster made by George Nelson of Antioch Grade school; second place winner in this division was taken by Rose Ann McGreal, also of Antioch grade school. Honorable mention in the class was won by Patrick Quilty, Antioch Grade school.

Division 2 includes pupils of 7th and 8th grades. Honors were won by Bonnie Lee Neilsen, Emmons, Georgia Saylor, Antioch, and honorable mention by Carol Jean Pregenzers, Emmons.

Poppy Day has been set for May 25, according to Mrs. Zimmerman.

Pickard Granted Wage Increase By Stabalization Board

Expansion Program To Be Carried Out At Local China Factory

Wage Stabilization Board controls which have resulted in retarded production at Pickard, Inc., were this week relaxed to provide a 10c hourly increase in all classifications. H. A. Pickard, president of the company, said today that the increase would make the employment of more help possible, and allow projected enlargement of the plant. He added that the increase would swell the company's payroll to considerably more than \$100,000 annually.

Approximately \$20,000 in new equipment was added to the plant facilities during the past year in an effort to produce enough china to supply the demand. At the present time, even with a strict dealer's quota system in effect, the company is almost a year behind on deliveries.

Pickard, Inc., was founded by Willard A. Pickard in Edgerton, Wisconsin in 1897. The business was moved to Chicago in 1898. The pottery department was established in Antioch in 1937 and the office and decorating department were brought to Antioch in 1941. W. A. Pickard remained president of the company until his death in 1939 at which time his son, H. A. Pickard, succeeded to the presidency of the company.

One of the finest chinaware made anywhere in the world is produced by Pickard, Inc., here in Antioch. A few of the many outstanding stores that feature Pickard China are:

Paine Furniture Co., Boston; Black, Starr, & Gorham, New York; J. L. Hudson, Detroit; H. & S. Pogue, Cincinnati; Marshal Field & Co., Chicago; Geo. Watts & Sons, Milwaukee; Lammert's, St. Louis; Hall's, Kansas City; Neiman Marcus Co., Dallas; Bullock's, Los Angeles; Gump's, San Francisco; Frederick & Nelson, Seattle.

The state service plates of Georgia and Mississippi and the state dinnerware of the Dominican Republic are Pickard china. In 1944 Iceland selected Pickard China for their special plate commemorating their independence from Denmark.

Veterans Given Preference in Civil Service

A total of 4,714 veterans were appointed to government positions in Illinois, Michigan and Wisconsin during March, according to a report issued yesterday by Joseph A. Connor, Seventh Regional Director, U. S. Civil Service Commission.

Except for those employed during last October this number tops the record for the Seventh Region. In October many extra workers were hired in preparation for the Christmas mail rush, which brought the total for the month to 5,021 veterans. The total employed in Illinois during March was 2,717; Michigan, 1,128 and Wisconsin, 871.

Miss May Hartley spent Easter holidays with relatives at Aledo, Illinois.

Alan Thain Receives Highest Freshman Rate At University of Ill.

Principal T. R. Birkhead was notified this week that Alan Lyman Thain, son of Mr. and Mrs. J. L. Thain, of Millburn, has been initiated into the Phi Eta Sigma, the high scholastic honor society for freshmen at the University of Illinois.

Parts of the letter received by Birkhead from Dean of Men E. E. Stafford, follow:

"The minimum qualification for membership in this fraternity is an average of 4.5 for the first semester or for the first year, i.e., grades of A for half the credits on the student's program and of B for the remainder. This requirement is so high that the number of those meeting it successfully usually represents about five per cent of the total number of men in the class."

"May I add that we regard the honor of being included in this little group as the most distinctive that can come to a freshman during his first year at our University, and I wish to tender my congratulations to the high school that sends us men who qualify for Phi Eta Sigma."

"We should be pleased if you would make this achievement known to members of the faculty whose efforts are partly responsible; and to the student body, in the hopes that others who come to the University will strive to emulate this splendid example."

Future Farmers Plant 200 Cypress Trees

On Thursday, April 18th a tree planting demonstration was conducted on the Antioch Township High School property by the Antioch Chapter of the Future Farmers of America under the supervision of C. L. Kutil, Vocational Agriculture instructor.

Professor Bulkley and his assistant, Mr. Carroll, of the College of Agriculture of the University of Illinois brought 200 Cypress trees from the State Nursery and conducted the demonstration. The planting was completed in 2 1/2 hours by the Soils and Crops and Animal Husbandry classes working in relays.

A similar planting made 6 years ago now has a few trees as high as 10 feet.

Sequiot Track Team Wins Tri-School Meet

Antioch's fighting Sequits were the winners in a tri-school track meet held at Antioch township high school Tuesday, April 16.

Barrington, Grant and Antioch were participants in the meet with Antioch lads amassing 72 1/2 points to 56 1/2 for Barrington and Grant trailing with 21.

Jones, of Antioch, was high man for the meet, winning three firsts, the high hurdles, the low hurdles, and the pole vault. Other Sequits who won first places were Trieger, 100-yard dash and 220-yard dash; January, first in the mile run; Sterbenz, first with a 368 heave in the shot put; and L. Mattson first in the running broad jump with a leap of 18 feet 5 inches.

Antioch won first place in the 440 yard relay with a time of 49.5 second. Barrington took first honors on the 880 relay with the time being 1:37.9.

Proposed Zoning Hearing Attended By Thirty-five

C. K. Anderson Makes Offer To Finance Planning Study

Highlight of the first public hearing held by Antioch's zoning commission, was the offer by C. K. Anderson, to pay all costs connected with having a study of the Village made by expert planners, and assisting the commission in any way possible. The offer was accepted by the board, through Chairman George Wagner, and thus assured that Antioch's zoning and planning for the future will be second to none.

Paul Kingery, Chicago Regional planning board head, who has been advising the board since its formation two-and-one-half years ago, had indicated that he would be present when the hearing was held, but was not in Chicago, and could not attend. His services were obtained by members of the village board when the program was started, and work which has been done up to date was in accordance with his instructions.

A good many suggested changes in the zoning of several districts were suggested by persons attending the meeting and every change was agreed to by the commission. Chief changes will be made in the zones for industry and it was suggested that in view of the fact that Antioch is not likely to attract any heavy industry in the form of steel mills, and other heavy industry, that the zones which have been indicated for light and heavy industry be thrown into one zone for manufacturing.

A committee of the Antioch Lions club was present at the meeting and Harry J. Krueger, president of the club and spokesman for the committee, suggested that final action on the zoning ordinance be delayed for a time while a more complete study of the needs of the community could be made. Estimated time in which the survey could be made would be about two years, he said, and that in view of the fact that little or no building can be done at the present time, that the delay would not be serious. He also offered the help of a committee from the club to work with the zoning commission, and this suggestion will be taken into consideration by the members of the commission.

It is probable that one or two more public hearings will be necessary before the ordinance will be ready for submission to the village board for approval and passage. Changes in the map will be made as soon as possible and the maps will again be displayed, before the next hearing is held. Since the maps must be posted for fifteen days before the hearings it is probable that the next zoning hearing will be held in about five weeks.

Ida Fidler Dies In Kenosha Hospital

Miss Ida Fidler, 78, a former resident of Antioch, passed away April 18, in the Kenosha hospital, following a lingering illness.

She was born June 10, 1867, in the village of Lake Villa, the daughter of John and Laura Fidler. For the past fourteen years she has made her home in Salem, Wisconsin.

She is survived by an aunt, Mrs. Mary Parks and three nieces, Mrs. Walter Baethke, Mrs. Laura Anderson, of Antioch, and Miss Lillie Fidler, of Salem.

Funeral services were held Monday from Strang's Funeral Home with the Rev. W. C. Henslee officiating. Interment in Angola Cemetery, Lake Villa.

Gov't. to Furnish Memorial Flags for Servicemen Who Die

When an honorably discharged war veteran dies after discharge, a flag to drape the casket is furnished through county seat postmasters.

The memorial flag is also given to the next of kin of any person dying during war service and whose body has not been or cannot be recovered. The next of kin is required to submit the telegram or other official notice of the veteran's death.

Illinois Service Officer, Arthur F. Reutlinger, at American Legion Home, Waukegan, Ill., will assist in preparing applications for flags and is ready to furnish any other assistance to dependents of deceased veterans.

Dr. and Mrs. W. P. Tague, returned home the first of the week after spending the past four months in Ft. Lauderdale, Fla.

A Cheap Trick

Whatever the OPA's merits may be as a price control agency, it sadly distracts from its official stature when it charges American citizens with promoting inflation because they do not agree with some of its policies and methods. A leading retailer group, in taking issue with the derogatory tactics of OPA, puts the position of the retailer on the record in unmistakably clear language: "Retailers who stay in business do so because they place the interests of their customers first. Retailers who do not place the interests of their customers first do not long remain in business. If any retailer.... were to be so unwise as to lose sight of customer interests in favor of temporary short term profits, the day of reckoning against them would be sure."

"As merchants, we shall owe our continued existence to the prosperity and purchasing power of the consuming public, our interests are inseparable from its in every respect. If we profit temporarily.... at the expense of the customer, we follow a shortsighted policy that has only one possible result—failure."

"Therefore, it is ridiculous to assume that the retailers and the consumers are on opposite sides of the fence in the matter of price and commodity control. We are on the same side of the fence, and.... you will find every good merchant looking out for the consumer's interest because that is also in his own best interest."

Check This One

In its annual report submitted to Congress, the Tennessee Valley Authority says: "The War Department revealed that the ability of the TVA to supply abundant electric power was the major factor in locating one of the largest atomic energy plants at Oak Ridge, Tenn."

In a review of the entire Clinton project at Oak Ridge in the December 13 issue of Engineering News-Record, the statement is made that in the heart of the TVA region the Army constructed a 238,000 kilowatt coal-burning electric generating plant at a cost of \$34,000,000 to insure reliability of service at Oak Ridge.

If this means anything, it means the Army couldn't depend on TVA's hydroelectric power, but had to fall back on the old reliable—power generated by steam made from coal.

Maybe this is an example of the basis for some of the other extravagant claims made for TVA over the years—grabbing credit to which others are entitled.—The West Virginian, Fairmont, W. Va.

Courage and Intelligence

If the farmer sat down on his broken plow and refused to till his fields, or if he sat down on his harvesting equipment and refused to gather his crop, the result would be no different than when men in industry stop production. Food production drops because the efficiency of the farm's operation depends on equipment more than it does on the farmer's back—no matter how strong he may be—because modern farming requires highly specialized equipment. Let it be said that striking does not show intelligence—any machine can be stopped by stripping one of its gears; intelligence is shown when a machine is kept from breaking down. The same holds true of our national economy.

The farmer has shown great strength against great obstacles. Let the men in industry realize that it takes courage to show intelligence and uninterrupted production, as contrasted with lack of intelligence which calls a strike and paralyzes production.

MORE RURAL TELEPHONES

ARE ON THE WAY

We know what the telephone means to rural families—how much it is needed to help produce and market crops—keep in touch with friends—get help in emergencies.

That is why we are moving rapidly ahead on our \$3,000,000 program to extend and improve rural telephone service.

It will take time, of course, to give telephone service to every one who wants it. It will take time to install all the switchboards and build all the lines that are needed. But many new developments are helping.

It's a big job, but we are turning our efforts back to civilian service just as fast as we turned them to the instant needs of war.

Nina Matthisen Is Delegate to Nat'l. Bah'i Convention

Nina Matthisen, of Bristol, is this week attending the 38th annual Convention of the Baha'is of the United States and Canada, as a delegate elected at the Wisconsin State Convention held in Milwaukee in February.

The Convention will be in session April 26th to 29th inclusive. All the 171 elected delegates have been urged to make a special effort to attend the Convention this year by the head of the Faith from the international center in Haifa, Palestine, because of the "momentous historic decisions to be disclosed to assembled representatives of the American Baha'i Community."

Two meetings will be open to the public during the Convention period. Friday evening at 8 o'clock the Baha'i Youth will have charge of a public meeting, the general subject being "Education for World Unity." Ross Woodman, of Winnipeg, Canada, will speak on "Standards of Modern Man." Betty Schoffler, of Evanston, will talk on "The Divine Educator" and Pari Zia Walrath, B. S., of Chicago, will speak on "Education in Action."

The Sunday afternoon public meeting at 3:30 will have for its theme "The Price of World Peace is World Religion" and the speakers will be

Library News

(By Marion Rigby, Librarian)

The library received "The Autobiography of William Allen White," as a memorial book. The Kansas editor's story of his life is filled with the human qualities that did as much to make him a leader as did his politics and his newspaper. Here is mellow writing with the humor and honesty that made him the friend of laborers and presidents.

Taylor Caldwell's new novel, "This Side of Innocence," is the story of two vital, strong-willed people, Jerome Lindsey and Amalie Maxwell. The novel begins in 1868, when Jerome attempts to break up his adopted brother's marriage to a beautiful but ineligible school teacher.

Pierre van Paassen's readers will be glad to know his new book, "Earth Could Be Fair," is now at the library. Described as the biography of a town, it is also a picture of the people Mr. van Paassen knew and loved in his native Holland. The latter half of the book describes the Nazi occupation.

"Man-Eaters of Kumaon," by Jim Corbett, is the fascinating tale of tiger hunting in the jungles of India, told by an accomplished story teller.

Naval Civic Readjustment Office Assists Veterans

Solving problems like advising one veteran how to go about obtaining passage for his fiancée from Scotland to the United States, or providing hospitalization for another who was found "camping on the door-step" are all in the day's work of the Ninth Naval District Civil Readjustment Office, whose big job is offering assistance to Midwest Navy veterans returning to civilian life.

The office, located at 844 N. Rush street, Chicago, keeps tab on every veteran discharged in the Ninth Naval District, the nation's largest, and handles thousands of queries weekly, according to Comdr. Frederick Stecker, USNR, who is in charge of the office.

Much as he wanted to smooth the path of young love, the readjustment officer was unable to offer much encouragement to the veteran who is waiting impatiently for his Scotch Lassie to join him. He was advised that it will be necessary to place her on a quota for entry into the United States, after he furnished her a copy of his discharge, proof of citizenship, letter of intent to wed, and an affidavit of support. Only then can she be placed on the long waiting list for the quota.

An ailing veteran in Ottumwa, Iowa, lost no time in taking the Civil Readjustment Office at its word, after receiving a routine letter sent to all discharges explaining services offered by the organization. He got out of a sick bed, hitch-hiked to Chicago, and was found waiting one morning outside the office when it opened, armed with the letter. He was placed in a veteran's hospital and is now receiving proper treatment.

The wife of another veteran wrote in demanding to know why her husband had not been awarded the Navy Good Conduct Medal, since as far as she was concerned, his conduct always had been exemplary. Investigation by the readjustment office disclosed that there was a court martial in his service record, automatically disqualifying him.

According to Commander Stecker, the Civil Readjustment Office establishes first contact with veterans, through receipt of a copy of the Notice of Separation from the Naval Service, which is issued to each dischargee. Within 30 days after his discharge, the veteran receives a letter from the Readjustment Office, explaining its purpose, and detailing services offered.

The organization acts directly on cases wherever possible, and where problems are involved which are outside its jurisdiction refers the veteran to the proper agency.

It's the Navy's way of saying that although the veteran is gone from the service, he's not forgotten.

Northwestern Expert Advises Postponement of Veteran's Bonus

The payment of a government bonus to veterans should not be made at this time, but should be postponed until we have attained greater production, Harry Guthmann, professor of finance at Northwestern University, said today.

"Whatever one's views on the soldiers' bonus, it would appear the height of unwise to pay it at a time when the supply of spendable cash far exceeds the amount of available goods," he said. "Such a large disbursement should be made when business conditions are bad and the cash would mean maximum benefit to the soldiers and the community."

He said in an interview that payment now would increase inflation. To stabilize business and curb inflation, he recommended:

1. Continued price controls.
2. High taxes and less government spending.
3. Rapid release of government surplus goods.
4. Sounder federal home loans.
5. A shrinkage of the war-inflated volume of bank deposits by selling the government's obligations to savings institutions and individual savers.

"Price controls should be retained to minimize the danger of a short explosive inflation as in 1919-20," he said. "But they should be dropped as rapidly as shortages disappear in any given field. The danger of slowly tapering off controls lies in an over zealous attempt to protect the consumer to the point where price increases are granted so tardily as to restrict production."

"Production alone will not stop inflation and counteract all unsound government finance but it will reduce the hazards."

He said that prices will continue to rise gradually, despite controls, because of large increases of currency and bank deposits that grew out of failure to finance the war by taxation and savings. "The very fact that artificial price controls were more successful in this war than the last one means that postwar prices have that much higher to rise than before," he stated.

"The temptation to cut taxes in an election year is great," he said. "But the time to balance the budget and reduce debt is when business is active and inflation threatens."

"The FHA plan, produced to stimulate building in the depression of the 1930's by making 80 and 90 per cent loans on easy terms, creates a danger of wholesale loss of homes if the loans are made at high prices during inflation. Such easy lending does not

increase the supply of homes during a period like the present but increases the number of bidders for a limited supply and tends to push prices of homes even higher.

"Normal lending standards and precautions should be re-introduced if we wish to avoid a bigger real estate smash than we had during the early 1930's. The use of credit in all fields where it will add fuel to inflation should be discouraged."

Jobless Veterans 110 Times Total of March 1945

Readjustment allowance payments were made to 110,675 unemployed war veterans during March, Director of Labor Robert L. Gordon reported today. This high record is practically 110 times the 1,007 veterans who received GI benefits in March of 1945.

"Unemployment benefits under the GI Bill totaled \$7,958,056 last month, compared with \$788,463 in March a year ago," Director Gordon said. "Here, too, last year's figures have been multiplied more than a hundred fold. While the 1,007 veterans who received readjustment allowance in March 1945 were less than 1 per cent of the 115,000 discharged up to that time, the 110,675 who received jobless benefits last month represent approximately 18 per cent of the estimated 600,000 Illinoisans discharged to date.

Job Situation Reversed
"Most of those veterans discharged up to a year ago, when the war was in full swing, were released because of illness or disability," Gordon pointed out. "Either they were able to find suitable work in war plants or were in need of medical or surgical care. Employment was available for all able to work. The situation today is reversed, as able-bodied veterans in huge numbers have been discharged into a field where a large labor surplus prevails."

"During last month, 774 self-employed veterans received \$90,848, compared with 19 who drew self-employment benefits of \$2,148 in March a year ago," the Director added.

LIVING IN A "CORD CORRAL"?

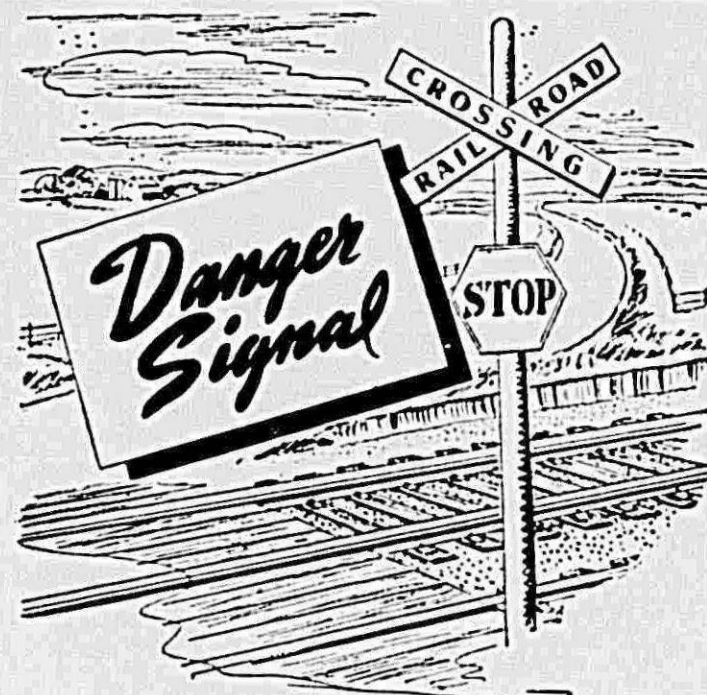

Then simply change to adequate wiring! Enjoy the luxury of breakfast cooked at the table without this extension cord maze. Eliminate extension cord "corals" forever with conveniently placed outlets.

If you are beset with double-plugs-on-double-plugs and unsightly extension cords, find out about adequate wiring. It means no more "lazy" appliances—there'll be enough circuits to operate them efficiently—and the wonderful new ones you are planning to own. It means plenty of convenience outlets to do away with troublesome extension cords. And you'll want multiple switches to light the way ahead as you enter a room.

Plan now for adequate wiring when materials are available—enjoy a new, more pleasant way of living. See us or your electrical contractor and learn how easy and inexpensive it is.

Easter services at the Community church were very beautiful and impressive and the church was full to capacity for both morning and evening services. Two children, Paul Ferris, Jr., son of Mr. and Mrs. Paul Ferris, and Bonnie Lee Schneider, daughter of Mr. and Mrs. Maynard Schneider, of Antioch vicinity, were baptized and five members more were added to the church membership. The auditorium was beautifully decorated with Easter and calla lilies and hydrangeas. The evening service consisted of the Easter cantata by the choir and was much enjoyed by the congregation, which filled every seat. Local Masonic and Eastern Star groups were guests at the evening service and a social hour in the dining room followed the service. Sunday school will be at 10 o'clock as usual next Sunday, worship service at 11 and the Wesley group at 7:30.

The Woman's Society of Christian Service will hold its next meeting on Wednesday afternoon, May 1, with Mrs. Arthur Haley at her home with a dessert luncheon at 1:15 and business meeting follows at 2 o'clock. Visitors are very welcome and are invited.

Miss Sue Weber, of Kemper Hall, Kenosha, spent Easter Day with her parents here and took part in the Easter cantata in the evening.

Mrs. Ben Cribb attended the funeral of a relative in Chicago last Saturday.

Mrs. Lulu Nelson, who spent the winter with her sisters in St. Louis and in Nashville, Ill., has returned to her home here.

Capt. William Walker, who is stationed in Enid, Okla., flew through to visit his parents here on Easter Sunday. Six of his army friends made the flight with him and also visited relatives in Chicago and Milwaukee.

Mr. and Mrs. Traver Ellis, nee Lorraine Hooper, of Belvidere, are receiving congratulations on the birth of their second son at Belvidere on Sunday, April 14, and Mr. and Mrs. Lester Hamlin are also receiving congratulations on the birth of a daughter on Saturday, April 20, at Condell hospital, Libertyville. The little girl has four brothers.

Mr. and Mrs. George Walker, of Libertyville, visited their parents, the William Walker family, on Easter Sunday, and Miss Margaret Walker and friend, Waukegan, also spent Sunday at the Walker home.

Mr. and Mrs. George Mitchell, of Chicago, came Saturday as guests of the William Weber family and attended Easter services at the church here. They returned home Sunday evening.

Cedar Lake 4-H club held its organization meeting for the year at the Cedar Lake school on Thursday, April 11 and elected the following officers:

President, Jean Hawkins; vice-president, Fern Mattson; sec. and treas., Ann Mattson; recreation chairman, Patsy Freund; salvage chairman, Jacqueline Dalziel; club reporter, Jeanne Burt. Their projects for the year are, 1. Use of fruits and vegetables; 2. Health and care of the teeth. Jean Hawkins and Ann Mattson will carry sewing as an extra project. More stress is to be put on recreation this year than in the past few years since the war bans on transportation have been lifted. Three new members have come into the club this year: Patsy Freund, Dawn and Jacqueline Kosp. Mrs. Leonard Mattson is leader and Mrs. Roy Crichton is co-leader of the group this year.

The children of the school enjoyed an Easter egg hunt Friday evening at the Sherwood picnic park. Mr.

As we were saying-----

Howdy Folks: When we hear Jimmy Fidler and Luella Parsons gushing over their favorite movie stars, we are convinced that movie commentators have more fun than anybody.

And when we hear the ladies raving over Van Johnson, we have to think that there is one van that really moves 'em.

And we must remark that there is a limit to everything except the number of news commentators over the air.

One of our neighbors thinks there is one program that should change its name to the "smirch of time."

Stealing a kiss may be petty larceny, but after seeing Dorothy Lamour, we sometimes think it would be grand.

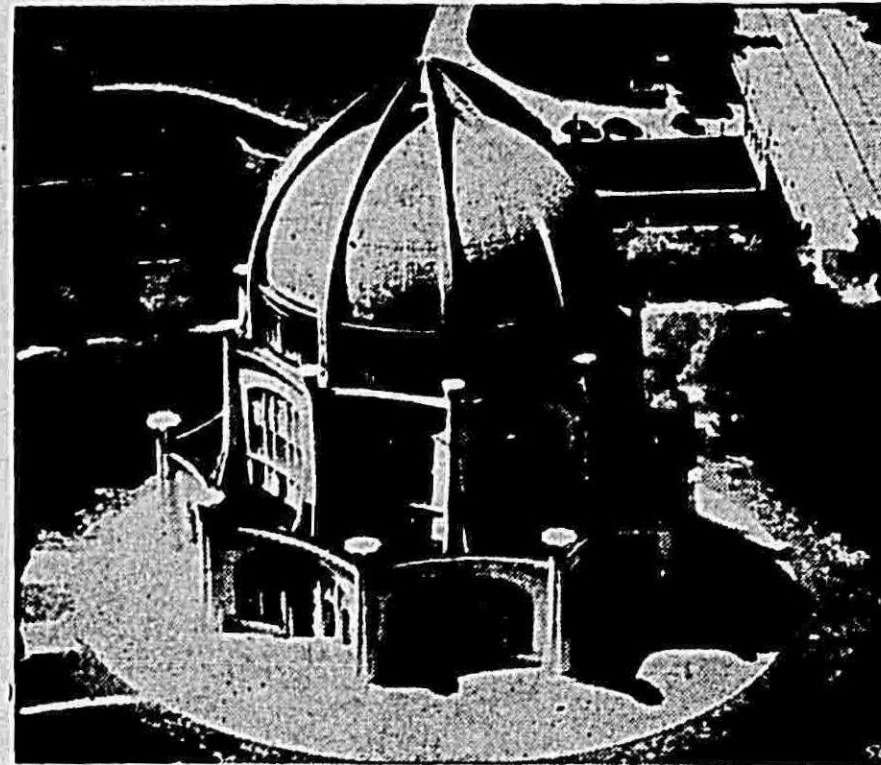

There's one grand thing about using our cleaning service. You know that the quality never varies. It's the same good value every time.

Landmark For Peace

Official Navy Photograph
WILMETTE, ILL. — Used as a landmark during the war by Naval aviators at nearby Glenview Air Base, the Baha'i Temple here, near Chicago, continues to stand out as a symbol of peace. Among architects the Temple is recognized as one of the outstanding edifices of its kind in the U. S. The Baha'i Faith, dedicated to the international brotherhood of man and universal peace, is followed in 78 countries by adherents whose sole purpose is to further the principles of the Faith.

Wallenbacker, school janitor, had colored many eggs which were hidden on the grounds. The hunt began at 7:30, but darkness came on, and as the grounds were not lighted, the little folks could not find as many as the larger ones, but they all had a good time.

Mr. and Mrs. Edward Hogle, of Waukegan, spent Easter Sunday with their mother, Mrs. Martha Daube.

Mrs. Helen Weber, Mrs. Lottie Barnstable and Mrs. Martha Madsen attended the Past Matrons club of O. E. S. last Thursday evening with Mrs. George White at her home near Hebron.

Sgt. Jos. Mack, who has been overseas in army service in France and Germany for more than a year, has received his discharge and is at home here with his wife, the former Jean Cribb, and their son.

State Spends 33 Million In March

Cash disbursements by the State of Illinois for all purposes during the month of March totalled \$33,259,852.82, and required the writing of 257,803 warrants, final compilations in the office of Arthur C. Lueder, Auditor of Public Accounts, showed today. All disbursements by the State of Illinois are made only by warrants drawn by the Auditor of Public Accounts. A summary of these expenditures are as follows:

Operating expenses of the executive, judicial and legislative branches of the State, and of all State departments, boards and commissions, including the University of Illinois were \$6,399,646.62.

Disbursements for the maintenance, construction, policing of highways, and for expenses incidental to the collection of automobile license and motor fuel tax were \$2,125,842.86. Principal and interest on State Bonded indebtedness paid during the month amounted to \$3,552,582.00.

Disbursements of funds allocated to the various counties and subdivisions of the State were namely: Common Schools \$1,211,548.72, relief for needy persons \$505,855.00, motor fuel tax for county purposes \$623,891.96, motor fuel tax for municipal purposes \$411,943.80.

State spending in Lake county amounted to \$28,236 for 816 old age pensions and \$6,381 for aid to dependent children. 117 warrants were issued for this cause during March.

During the first quarter of 1946, arrangements were completed by 36 manufacturers for locating new or branch plants in northern Illinois communities served by the Public Service Company of Northern Illinois, it was reported today by the territorial information department of the utility.

When in operation, the 36 firms will employ approximately 11,000 persons.

Records for the three-month reporting period revealed that new industries are being received in the area at a pace nearly twice that of 1945, when the total for the year was 82.

Sixteen of the plants for which negotiations were completed during the first quarter of 1946 will be branches of existing concerns, many of national prominence. Eleven will be newly organized firms and nine industries are moving their operations to the territory served by the utility.

In addition, as a result of personal interviews with over 600 top executives of eastern industrial plants, special representatives of the utility are now working with 66 of them who are interested in establishing

plants in northern Illinois as soon as proper facilities can be found or constructed.

The representatives, armed with facts about the industrial advantages of northern Illinois, have visited industries in Cleveland, Detroit, New York, Boston, Baltimore and Philadelphia during the past few months and future trips to other industrial areas are planned.

Snakes Scent Death
Rattlesnakes, contrary to belief, do not seek to avenge the death of a mate. They are attracted to the death scene by scent.
